PROFESSIONAL PROFILE

International affairs and technology strategist specializing in intergovernmental relations and emerging technologies. With experience across Poland, Austria, Luxembourg, France, Spain, the UK, and the US, I bridge national security with technology priorities. At Harvard's Belfer Center, I co-author strategic assessments on critical technologies for security stakeholders. Recently, I assisted with EBRD's cybersecurity risk framework, conducting threat intelligence assessments across TMT, energy and infrastructure projects in Europe, Central Asia, and sub-Saharan Africa. At the European Court of Auditors, I pioneered data-driven methodologies and delivered interactive intelligence dashboards. I combine technical implementation (Python, R, SQL) with strategic advisory on governance and mission-critical systems. As a published researcher, I contribute analysis on defense technology, cybersecurity, and international security. Equally fluent in code and conversation, I bridge technical expertise with policy communication across public, private and academic sectors.

AWARDS, FELLOWSHIPS & KEY ACHIEVEMENTS

- **Fulbright Scholarship** – awarded to pursue a Master in Public Administration degree at Harvard Kennedy School (2024–2026); first Polish recipient at HKS
- **John F. Kennedy Fellowship** – full tuition merit-based scholarship to pursue MPA studies at Harvard (2024–2026)
