EDUCATION

Massachusetts Institute of Technology, Cambridge, MA

Aug 2024 – May 2028

Bachelor of Science in Computer Science

GPA: 5.0

Relevant Coursework: Intro to ML, Math for CS, Fundamentals of Programming, Linear Algebra, Multivariable Calculus

Technical Skills: Python, JavaScript, React.JS (Next.JS), Typescript, React Native (Expo), Java, Supabase (Postgres)

EXPERIENCE

SalesPatriot (YC W25), *Software Engineering Intern*

San Francisco, CA | **Jun 2025 – Aug 2025**

- Developed custom AI algorithm in Python to rank millions of military solicitations, cutting API costs by \$5k/month.
- Built 6x faster demo for \$90B+ defense firm, showcased in executive meetings and central to \$10M deal negotiations.
- Collaborated with clients to build full-stack Svelte.js tool enabling packaging cost estimation (previously impossible).

Songlingo, *Founder*

Pembroke Pines, FL | **Apr 2023 – Present**

- Launched website (song-lingo.com) and app with React Native, Expo, and Next.js to learn languages through music.
- Grew to 10k+ users in 160+ countries, selected for MIT Sandbox funding program and MIT Fuse, intensive startup sprint.
- Won 9 Awards including: Buildspace Grant (top 20 of 70k), Congressional App Challenge Winner, 1st in Notable Pitch

PROJECTS

Voice of the People, *Team Lead*

San Francisco, CA | **Aug 2025**

- Built AI tool for politicians to analyze constituent sentiment, placed 3/50 in Cognition Hack judged by Andrej Karpathy.
- Enabled instant visualization of constituent sentiment by integrating text to graph technologies, Next.js, and OpenAI.

AI Behavioral Interview Prep Tool, *Co-Creator*

Cambridge, MA | **May 2025**

- Developed AI-powered interview simulator using NLP and speech-to-text to deliver real-time candidate feedback.
- Collaborated with a team to deliver a functional prototype within 12 hours. Gained 11,000 impressions.

Elevate Health, *Team Lead*

Cambridge, MA | **Sep 2025**

- Built Next.js site with camera barcode scanning to track participant health data and generate actionable AI insights.

LEADERSHIP EXPERIENCE

Martin Trust Center for MIT Entrepreneurship, *Student Board President*

Cambridge, MA | **Mar 2025 – Present**

- Advise and collaborate with the rest of the board to design entrepreneurship events for 400+ student innovators.
- Plan high-impact speaker sessions, featuring leaders like Aravind Srinivas (Perplexity) and Spenser Skates (Amplitude).
- Head of committee leading MIT's startup career fair, coordinating 50 startups and 500+ students across all disciplines.

MIT Admissions, *Tour Guide*

Cambridge, MA | **Dec 2024 – Present**

- Lead engaging campus tours for prospective students and families, showcasing MIT's academics and student life.
- Serve as an MIT ambassador by answering questions and clearly communicating information to diverse audiences.

MIT Hillel, *Vice President of Programming*

Cambridge, MA | **Dec 2024 – Present**

- Lead programs for 300+ participants, including major events like Harvard–MIT Sabbath dinner and interfaith gatherings.

TeachForth, *Volunteer Global Python Instructor*

Remote | **Oct 2021 – Aug 2024**

- Taught Python to 4 underserved students in Jamaica; one advanced to teach peers, creating a self-sustaining program.
